

For Immediate Release

Digital Watchdog® Adds Blackjack® Cube DL™ NVR Server Supports up to 480Mbps Throughput and Includes DW Spectrum® IPVMS

New Blackjack® Cube DL™ NVR

Cerritos, CA (September 11, 2017) – [Digital Watchdog® \(DW™\)](http://www.digital-watchdog.com), the industry leader in digital recorders, surveillance cameras and related management software, announces the release of our new Blackjack® Cube DL™ NVR powered by DW Spectrum® IPVMS. The new Windows®-based server offers users a high-end solution to record and manage up to a maximum of 480Mbps throughput or three (3) Panzilla® cameras (MEGApix® PANO™ 48 Megapixel Multi-Sensor Camera — DWC-PZV2M72T).

The Blackjack® Cube DL™ can record and manage single-sensor IP cameras of any resolution, with an equivalent capacity of up to 96 2.1MP cameras at 30fps and a maximum of 480Mbps throughput or up to 3 Panzilla® cameras with either 48MP or 32MP (MEGApix® PANO™ DWC-PZV2M72T). The hardware includes an Intel® i7® processor, 16GB of memory, a high performance professional graphics card, enterprise-class hard drives, Windows® operating system residing on a solid state drive and is pre-loaded with DW Spectrum® IPVMS including a license for 4 channels of multi-megapixel recording.

Digital Watchdog Press Release

“Our Cube server form factor continues to be extremely popular in the marketplace,” said Mark Espenschied, Director of Marketing, Digital Watchdog. “As camera resolutions continue to increase, our customers have asked for a Cube solution that can handle the throughput of more cameras streaming at higher resolutions. The Cube DL fills that need, including efficient management of up to three of our 48 megapixel panoramic cameras.”

The NVR is ONVIF conformant and is available with 4-20TB HDD. Blackjack® Cube DL™ NVR models come with our unbeatable 5 Year Limited Warranty and DW Spectrum® 4-channel license included (DW-SPECTRUMLSC004).

Features include:

- Supports All ONVIF Conformant IP Cameras
